

Interactions Matter

Every Child. Every Day.

EARLY CHILDHOOD PROVIDER CONFERENCE

ELC's Conference Empowers Early Educators, Strengthens Teacher-Child Connections

That's a wrap! If smiles, laughter and rave reviews are measures of success, then Conference 2024 was a bonafide hit.

On Saturday, January 27, 2024, 300 early educators from across Sarasota County gathered at Suncoast Technical College in Sarasota to experience a morning filled with education, empowerment and enlightenment. Offering a diverse array of workshops, the professional development event focused on creating and strengthening positive teacher-child interactions.

Whether you're a seasoned pro or new to the field, our conference caters to all. Saturday's immersive experience was designed for preschool directors, preschool teachers as well as those working with little ones at local businesses and community-based nonprofits. The goal is for them to gain valuable knowledge, discover new strategies, and exchange insights with peers.

Sending a very special thanks to all our incredible speakers and presenters. We're grateful for the shared expertise, meaningful connections and impactful conversations. The vibrant community spirit was truly palpable. The gratitude continues as we send appreciation to our event sponsors—your support fueled our success. Thank you, Suncoast Technical College, for the wonderful venue. Thank you Children First, Inc. for the water. And thank you, United Way Suncoast, for the delicious muffins, fruit and snacks. Equally, a heartfelt shoutout to our dedicated volunteers – your hard work and helping hands made it all possible. We couldn't have pulled it off without you!

Let's carry this momentum forward and continue shaping bright futures for our littlest learners! Stay tuned for details on Conference 2025
